Once a Buff, always a Buff

26 October 2020

Dear Washie runners and supporter's of The Washie 100 Miler

The Committee have assessed the Port Alfred route (R72) and SANRAL have completed large sections and the road itself is looking very good.

Unfortunately, (for the Washie route) there is a new two year project being undertaken by BCMM which will see the incoming route from the airport undergoing major changes and roadworks while they build the Airport Interchange. This has already begun and they are doing construction in both directions. There is also another project on the Esplanade which is already underway and this change closes off all vehicle traffic from the Aquarium onwards, (this is a separate BCMM project).

The route change was not due to the Roadworks per se, but for safety issues these particular sections presented, both for the runner as well as the seconding crews and their ability to stop intermittently. For this reason the Committee have decided to continue with the Cathcart route again in 2021.

We thank you for your patience and look forward to welcoming our runners to the start, both old and new.

Kind regards

Craig Nelson
Chairman
